PHOEBE GLADIS KAITHA

Email: phoebekaitha11@gmail.com | **Phone: +91 8008085382** | **LinkedIn:** linkedin/phoebe-gladis-kaitha

PROFILE

Computer Science undergraduate with strong foundations in Java, Object-Oriented Programming (OOP), Data Structures and Algorithms, SQL, Software development and testing fundamentals. Passionate about creating efficient software solutions in dynamic and collaborative development environments.

TECHNICAL SKILLS

- **Languages:** Java, C, Python
- **Web Technologies:** HTML, CSS, JavaScript, React.js
- **Databases:** SQL
- **Other Skills:** Data Structures and Algorithms, Object Oriented Programming, Git

EDUCATION

G. Narayanamma Institute of Technology and Science   **Hyderabad, India**
Bachelor of Technology in Computer Science | CGPA: **9.04**   2021 - 2025

Sri Chaitanya Junior College   **Hyderabad,India**
12th; Telangana State Board of Intermediate Education |Percentage: **98%**   2019 -2021

St. Paul's High School   **Armoor,India**
10th; Secondary School Certificate |CGPA :**10**   2018 - 2019

WORK EXPERIENCE

- **S&P Global** *[Summer Intern]*   ***Jun-Aug 2024***
  - Developed a Streamlit-based dashboard integrated with Snowflake for real-time business data insights.
  - Wrote SQL queries to pull and refine data, generating 5+ unique data visualizations on the Streamlit dashboard, which enabled team members to identify critical process improvements.
  - **Technologies Used :** Python, SQL, Streamlit, Snowflake

PROJECTS

- **E-commerce Web Application**
  - Built an e-commerce platform with user login, product management, and role-based access.
  - Developed 10+ REST API endpoints for user authentication, product management, category handling, search, and filters and implemented JWT-based authentication
  - Used MongoDB to manage backend data and React.js to build an interactive user interface.
  - **Technologies Used :** MongoDB, Express.js, React.js, Node.js
- **Weather Forecasting Application**
  - Built a weather forecasting application with real-time weather APIs.
  - Supports multi-city forecasts and search-based interactions.
  - **Technologies Used :** React.js , API
- **Personal Portfolio Website**
  - Developed a personal portfolio website aimed at showcasing my professional skills and projects.
  - Emphasized UI clarity and responsiveness.
  - **Technologies Used** : React.js

CERTIFICATIONS

- **Web Development Course (WD101)** – Completed as a part of Lite Advanced Development Program on Pupilfirst School
- **Product Operations Certificate: SQL Training – Basic –** Completed during internship at S&P Global, focused on SQL querying for business and product data analysis.
- **Paper Presentation** – Presented a paper on "IoT in Agriculture" at Chaitanya Bharathi Institute of Technology and Science
- **NASA International Space Apps Hackathon** – Organizer, GNITS
- **Flipkart <GirlsWannaCode/5.0>** – Participated in Online Coding Challenge
- **Math Pi Rates** – Won 3rd Prize in Inter-College Quiz Competition among 150 participants

EXTRA-CURRICULARS

- **Volleyball Team Member** – Represented **GNITS** in multiple inter-college tournaments across Hyderabad.
- Secured 1st place among 10+ participating colleges at Vidya Jyothi Institute of Technology Tournament**,** demonstrating teamwork and competitive performance.
